SANDWICH ISLANDS.

By the arrival of the brig Woodland from Honolulu, files of the Commercial *Advertiser* up to the 10th of August have been received in San Francisco, from which the following extracts are made:

Improvements are going forward in Honolulu with renewed energy.

A schedule of the proposed treaty between the United States and the Sandwich Islands is published by the *Gazette*. It admits the following articles of Hawaiian produce into any of the ports of the United States duty free: Animals; arrow-root; coffee; cotton, unmanufactured; fruits and vegetables, dried and undried, preserved and unpreserved; furs, hides and skins, undressed; rice; sandal; hoa and kou woods, and other ornamental woods; seed, plants shrubs and trees; sugar, not above No. 12, Dutch standard, in color; syrups of sugar; molasses; tallow. And the following articles of United States growth to be admitted into the Hawaiian Islands free of duty: Agricultural implements; animals; beef, bacon, pork, ham and preserved meats; boots and shoes; bread and breadstuffs; bricks, lime and cement; cordage and naval stores; copper and composition sheathings, nails and bolts; cotton manufactures, bleached and unbleached, colored stained, painted or printed, and not colored, stained or printed, not exceeding one hundred and sixty (160) threads to the square inch, counting the warp and filling; fish, dried and pickled; oysters; fruits and vegetables, dried and undried, preserved and unpreserved, gold and silver coin, bullion; hardware, hoop-iron and rivets; hides, furs, skins and pelts undressed; ice; iron and steel; leather and tallow; lumber and timber, of all kinds, round, hewed and sawed, manufactured in whole or in part; machinery; oats and hay; paper, stationery and books; petroleum and all other oils for illuminating and lubricating purposes; plants, shrubs and trees; woolen manufactures other than ready made clothing.

Two men were starved on board a coaster starting out without provisions and failing to make the land. Their names were Rogers and Glenny. Glenny died, and Rogers drank what blood he could get out of the corpse, and sought nourishment from other portions of the body. Rogers was in a very low state when found, having been without food for ten days, and his breath was like a rotten corpse. An inquest was to be held on the dead body, and in the meantime successful efforts were made to restore Rogers.

A new discovery of sugar making has been made by Albert Frier, a chemist of England. He has bought a plantation in Antigun, and successfully introduced it there. The invention is attracting attention in the Islands. The process consists in taking the cane-juice as it leaves the mill, and, in fifteen minutes without separating the molasses, or even by application of lime or any other substance changing the pure juice into a hard substance like stone, which is called concrete. The machinery by which this novel process is effected is exceedingly simple, and costs less than five thousand dollars. It consists in the use, for boiling, of what Mr. Fryer calls "trays," better known to all our planters as the "sorghum pan," through which the juice in passing becomes most effectually boiled without the least injuring it. Leaving the pans it is elevated into a cylinder, driven by steam, through which it is distributed and dried by steam fan and hot air, which evaporates all the moisture from the juice. On leaving this cylinder, it runs into containers of any kind, either barrels, hogsheads, boxes or bags, and becomes very soon as hard as stone, in which condition it can be shipped around the world with little or no perceptible loss in weight. This process will enhance the profits of production in the Islands one hundred per cent.

The grub known as the cane-borer has attacked the palm, and is destroying valuable trees in Honolulu.

REBEL PARADISE.—Jesse D. Bright, who was expelled from the United States Senate for disloyalty, is now a member of the Kentucky Assembly, from Trimble and Carroll counties.

WM. F. HIGGINS, the hero of the hand-organ concert, has been presented with a liquor case of solid rosewood and cut-glass decanters, valued at $100.

MCINTYRE, a private of Co. F, 23d Inf., the supposed murderer of Marshal Keeler, of the Dalles, has been arrested. Several other soldiers have been arrested as accessories.

A BURIAL party in Kansas recently stole a grave, actually jayhawked it, and choused its proper owner out of a resting place.

A MAN in Rutland, Vermont was cured of deafness by a stroke of lightning. Severe remedy.

POPULATION.—According to Langley's new Directory, San Francisco has 131,100 people.

THE Collector of San Francisco publishes an advertisement requesting all persons who know of the importation of coolies to give information to him of the fact. Who knows of any coolies in the State?—*Bee.*

In the usual meaning of the word coolie, there has not been one in the State in ten years. A Joint Committee of the Legislature in 1862 made a thorough investigation of the matter and not a coolie could be found, nor is there one in the State. We defy any man to find one.

ONE MORE.—The last news from Tuolumne is that William A. Davies, Union, has 37 more votes that William Darrow, Democrat, heretofore supposed to be elected.

RICH COPPER ORE.—G. W. Squires has found a vein of copper ore in the coast range in Mendocino county, about ninety miles from Marysville, very wide and very rich.

HIGHT OF MT. HOOD.—Col. Williamson has measured accurately, and finds Mt. Hood 11,225 feet high.

REMOVAL.

DR. TOZER,
Formerly of Lock Hospital, London.

Would most respectfully call the attention of the public of San Francisco and vicinity to the fact that he has removed his MEDICAL INSTITUTE from the corner of Jackson and Kearny streets,
TO 108 MONTGOMERY STREET,
Adjoining Occidental Hotel,
Where he will be in attendance daily to administer to the wants of all those who may require his services.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering:

Nervous Debility, Loss of Memory, Pain in the Limbs and back, Palpitation of the Heart, Trembling of the Limbs, Headache and an aversion to Genial Society, especially that of Females.

There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter, and there will be no occasion for your calling at the office.

STRICTURE OF THE URETHRA

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourselves of its terrible results. The worst cases cured in a few days.

DR. TOZER has for the last forty years given his entire attention to the TREATMENT AND CURE of SPECIAL COMPLAINTS, and will GUARANTEE a cure in all cases. His remedies are Purely Vegetable, and positive in their action.

His remedies for all FEMALE COMPLAINTS have been tried in this City and State for the last fifteen years, with the greatest success.

His FEMALE PILLS are unrivaled in the cure of suppression of the monthly sickness. Price, $5 per box—to be had at the office only. Sent by mail or express on receipt of price.

AMERICAN INSTITUTE
NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,
HIGHEST Premium! Gold MEDAL!

REASONS:
1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficent, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

A CARD FROM THE
AMERICAN WATCH COMPANY,
Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attempted repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enameled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL Watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

CONGRESS WATER.—Two of our townsmen, one of them a native of Saratoga, have just returned from the soda springs on the head waters of the North Fork of the American, and they report the water of one spring exactly like the celebrated Congress water of Saratoga. They left the regular stage road at Summit Valley, and footed it ten miles, packing twenty-five pounds of grub, and had a good time hunting and loafing for four days. The lone inhabitant of the solitary cabin there had left for San Francisco, and they had the whole region to themselves.

WILL BE CALLED UPON.—The citizens of Dutch Flat will have an opportunity on Monday and Tuesday next, and on those days only, to subscribe for the best Map of the World ever published. See a copy before you say no The unusual amount of information stamped upon it renders it very desirable, considering its very low price. No household should be without it.

SERIOUS ACCIDENT.—An accident which may terminate fatally to one of the parties, occurred at Cisco yesterday. Mrs. L. P. O'Connor, of that place, was riding with a gentleman whose name we could not learn, when the horses became frightened and ran away throwing both out of the wagon, and injuring the lady seriously though not dangerously, while the gentleman is not expected to recover. One of the horses was instantly killed.

GOOD WORK.—Mr. Thomas Randolph, of Marysville, is trying to raise $1,700 to pay the debt on the Church edifice of the colored Baptists. He has secured $1,200 of the amount already. The citizens of Dutch Flat and Gold Run have given about $40. Mr. Randolph has been pastor of the church since 1856. We bid him God speed.

TERRIFIC EXPLOSIONS.—Every day when the blasts of the Pacific Railroad are set off along the line from Cisco to the Summit, the shock is felt at Meadow Lake, twelve miles away. Not only is the noise distinctly heard, but the houses are shaken till the windows rattle. A friend just from there would not believe till convinced by hearing with his own ears and himself feeling the shock.

IMPORTANT TO MINERS.

In a recent decision made by the Land Office Commissioner at Washington relating to mining titles under the sixth section of the Act of Congress, approved July 26th, 1866, entitled "Granting the right of way of way to ditch and canal owners over the public lands, and for other purposes," the question has been presented as to the steps requisite to be taken by adverse claimants to a mine, in order to stop proceedings and prevent the issue of a patent until the contrary is determined by the courts. On the question submitted, Commissioner Wilson has ruled that it will be necessary in such cases for the contestant to file with the Register and receiver a statement showing the correct description of the mine, the title to which is in dispute, also the extent of the premises in conflict; and should the statement be sustained by satisfactory proof, these officers are authorized to stay further proceedings until that adjustment shall be had in the courts of law. Adverse claimants are not required by law or instructions from the General Land Office to make applications for patents, nor to incur the expense of surveying and advertising in order to warrant a stay of proceedings. These applications, supported by proper testimony, showing interest in the conflicting claims, are deemed sufficient authority to the Registers and Receivers for a stay of further proceedings, yet the adverse showing must be filed before the expiration of the ninety days' notice. When thus filed the Surveyor General will refrain from ordering a survey of the claim in controversy until the contest is finally adjudicated by the judicial tribunals. In case the adjudication is favorable to the original claimant, then the survey is to be made on application by him to the Surveyor General; but if the adverse claimant is sustained by the Court and desires a patent, in that event he must file in the local Land Office a regular application for a survey and patent to the extent of his claim; or, if he so desire, he need take no steps in that direction, should there exist no adverse interests to the premises.

OH, MEMORY!

Let all those who intend to vote the Democratic ticket at the coming judicial election, recall the high and palmy old days of chivalry rule, when "the North got the law and the South the nigger." When those who had business with the judges, after raking the town to find them, in vain, would be directed by their most intimate associates to some gambling or bawdy house. When the common report was, and the current belief, that no suit could be won, only as certain friends of the judges were employed. When a client's lawyer would urge the securing of certain men as associate counsel, and they were generally retained. Let our adopted fellow citizens remember that two at least of these worthies flopped to Know Nothingism, and one was elected and another re-elected by that delectable party. If any man thinks "the Ethiopian can change his skin, or the leopard his spots," he may believe that Democracy has changed for the better, till he reads the *Examiner* and the *Mountain Democrat*, then he will find the same old soul and speech. The word mongrel has taken the place of abolitionist, and a few choice epithets have been added to the slang-whang vocabulary, and all the old vices and crimes are still claimed as highest virtues. Slavery, States rights, rebellion, and treason are the four cardinal Democratic virtues. Tyranny in all its manifold forms is held to be the highest expression of civilization and christianity. Maximilian and Stonewall Jackson are the sainted martyrs of the age, and Jefferson Davis and Robert E. Lee the great heroes of humanity. The *Examiner* and *Vanguard* are exhorting the faithful to remember that they are the only representatives of true Democracy, and that the Senatorial toga must flow from their shoulders, or cover only shallow pretences or trimming hypocrisy. True, Gwin and Terry, Austin Smith, Higley and Showalter and many revered adherents of the "Lost Cause" are not here to rally to the triumphant standard, but their memories are green, and their principles yet live, and must be vindicated, Let no man be deceived; no doctrine or practice of the party is to be changed. The old leaders are tireless, arrogant and violent, and they will crush down all the time-serving, moderate and timid eleventh hour converts. The good old times will come back with all their pristine glories, or the party must go under once more.

PLAUSIBLE SOPHISTRY.

The Sacramento *Union*, a journal which has done more to defeat the entire Union ticket than any any other ten in the State, in an article headed "A Word in Kindness to the Unkind," labors very hard to shirk the load of responsibility incurred by it in electing Haight Governor and two loud-mouthed rebels to Congress. It begins by saying that "it is difficult to reason with blockheads." It will be remembered that the *Union* urged the ridiculous idea that a portion (Gorham, Parks, Howell and McCarthy) could be defeated and the balance of the ticket elected. This the interior press have always denied, and the result of the election will satisfactorily inform the *Union* who the blockheads were. Again the *Union* says that the interior press took "another advanced step in the wrong, and assailed those Union journals which honestly differed with them as bribed, as bought as without influence, as condemned by all loyal men. Whether these imputations were begotten by ignorance or falsehood, we do not know; but this all persons now know—that the verdict of the people sustains us, while it condemns the course of our accusers." The *Union* editor must have a very bad memory, or he would remember that his paper has placed nearly every paper upon the defensive, which advocated the regular Union nominee for Governor, by charges of bribery. The "guerrilla press," "Gorham's hirelings," and "subsidized jounals," were the terms applied to honest, industrious men, who had not the second coat to their backs at the very time when the cry of "Gorham's gold" was raised against them. There were men who were "blockheads" enough to believe that when a delegate goes into a convention, he should in honor support the nominee, whether that nominee be his choice or not; and we are of the number. There were men who thought any Union man was better than a man who had spoken of President Lincoln as a "thief," and a "jester;" and the Sacramento *Union's* owners were *not* of the number. During the war, the Sacramento *Union* never said a word about its being an "independent" paper; it was fearless in its advocacy of the Union cause then. But when a young man, who had risen from obscurity by brains and industry, came before the people as a candidate for Governor, the *Union* never had claimed to be anything but an "independent" journal. A politician in this county recently said: "Living I have been the poor man's friend, and dying I will bless him." Whether he meant it or not, the sentiment was a courageous one. The *Union* never could lay claim to any such sort of courage. Its purse-proud arrogance has long since disgusted men of everyday character.

The *Union* may try to plaster over the wounds it has inflicted but it will take it as long to live down the memory of its damnable treachery as it will take the Democracy to live down its villainous record during the great war.—*Red Bluff Independent.*

FIRST ANNUAL MEETING OF THE BUILDERS' INSURANCE COMPANY.—A numerous meeting of the above Company was held last evening in the salesroom of Messrs. H. F. Williams & Co., on California street, near Sansome. At eight o'clock the President, Mr. Mooney, called the meeting to order, to receive the annual report of the Directors. He explained that the Builder's Insurance Company, though an offspring of the California Building and Loan Society, was a seperate Company, with seperate capital, cashier, secretary, actuary, and staff of clerks. They occupied the rear portion of the Bank building, enjoyed all the patronage which the Bank could influence, and in one short year had acquired the position of a first-class Insurance Company. There were only two or three of the other fifteen Companies in operation that had a larger business, and he foresaw that in one year from now the builders' would be at the head of the insurance business of the Pacific Coast. [Cheers.] The President called upon Mr. McKean, one of the book-keepers, to read the balance sheets, which exhibited the following statement:

The President called upon the book-keeper to verify the statement. J. W. McKenzie Notary Public, then administered the oath, which being done, the President announced that from the interest received from the bank for their deposits and on their capital stock, they were enabled to declare a dividend of two per cent. per month upon the cash paid in by the stockholders, without touching one dollar of the premium fund. On motion, the report was received. Mr. Jordan moved, and Mr. Fishbeck seconded the motion, that the thanks of the meeting be tendered to the President and the Board of Directors for their careful and successful administration of their trust the past year. Carried. On motion the meeting unanimously voted in the old Board of Directors. Mr. Mooney, on behalf of the old Board returned thanks, and promised to double the business of the Builders' Insurance Company the next year. And the meeting adjourned.—*S. F. Call, Sept. 12th.*

NEW TUNNEL.—The American Eagle Mining Company are digging a tunnel 1,144 feet long for Hall & Allen's ditch. The object is to turn the ditch off from the mining ground of the company. The tunnel is to be timbered throughout, and is three and a half feet by five, large enough to admit a flume three by three. Over four hundred feet of the work is now ready for the flume, and is going forward at the rate of ten or twelve feet a day. It is just above Nary Red Diggins, about a mile from Dutch Flat.

CHANGE.—J. C. Scripture, formerly of this place, is now at Auburn, looking through a mahogony tube, with a black cloth over his head, at every face he can persuade the sun to paint.

YANKEE PLUMMER is on his travels again. He was to read, recite and play the comic at Auburn last evening.

WORK.—The Dutch Flat Water Company have twenty men at work enlarging their ditch near Gold Run.

MORE GOLD.—The Green Emigrant claim, near Auburn, has been opened in a a new place all alive with gold. This is hundreds of feet from the former openings.

THE Grand Sultan has sent an Embassador to Washington. He met Uncle Samuel at the Paris Exposition, and became favorably impressed with his looks.

NEW VOLUME.—The Sacramento *Union* entered upon its thirty-sixth volume yesterday morning. As a "news" paper it has no equal on the continent.

SEMI-WEEKLY ENQUIRER.

ADDRESS OF THE UNION STATE CENTRAL COMMITTEE.

Brethren in the cause of the Country and Loyal Reconstruction: Dismissing all vain regrets over the disaster which befell our party at the late election, and prudently refraining from useless discussions as to the insufficient causes which deterred so many from discharging their duty at the polls, let us renew our vows of devotion to our sacred cause, and commence the work of organization, so indispensable to success in the future. We are on the eve of a Presidential election. The great majority who sustained the war against rebellion, will not permit California to give her electoral vote to an ally of rebels lately in arms. The signs of the times indicate a necessity that the zealous and earnest men of the State should be unremitting in their efforts to arouse the indifferent and the careless to a realization of their duty. Called as we shall be by the next National Convention, to rally around the standard of Grant, Sheridan, or some other equally true and talented leader, California will blot out the bad record of the 4th of September. The men who were true on that memorable day will ever remain constant, while the thousands who were misled by the covert assaults on the party from unexpected quarters, will not again be subject to such influences. Let us look not backward, but forward, and victory will again perch upon our banners. We cannot doubt that the lesson of our late defeat will be heeded; that Union men will realize the fact that their patriotism can only find expression by supporting the nominees of the party at the ballot box. Let us cultivate harmony and forbearance in our ranks.—Loyal men alone must govern the country.

In October next we will be called upon to elect a Judge of the Supreme Court, a Superintendent of Public Instruction, and judicial officers throughout the State. In the election of a Supreme Judge, no political issue is involved; yet John Curry, a tried, experienced, honest and incorruptible Judge, has received a nomination at our hands.—People of all parties have an interest in the election of such a man; and though his high character as a jurist will secure him many votes from political opponents, yet his main support must come from the party which has conferred upon him his nomination. Let us all, as bounden duty, give him our support. Let the voices from the sea commingle with those from the mountains, and all determine that honesty and impartiality in a tried and experienced judicial officer shall not go unappreciated.

In the election of John Swett for Superintendent of Public Instruction, we shall reward ability, industry and perseverance in the discharge of official duty. We shall secure our common school system—so justly the pride of the State—against revolution, as well as bring to its aid all that can reasonably be advised for its advancement and prosperity. We must keep our public schools open to all denominations and people, and never consent to have them taught irreverence to our flag or the institutions of our country. We can never consent that the efficiency of our school fund shall be in any manner impaired, or that any portion of it shall be diverted from the purpose of giving to all, irrespective of birth place, creed or religion, an equal and liberal education.

Then let every member of the Union party, add every man of whatever party who is in favor of a tried and faithful Judge of the Supreme Court, and who is in favor of recognizing fidelity and honesty in high places, and all who are in favor of the inviolability of our school fund, come to the support of our ticket at the Judicial Election to be held on the 16th of October, and all will be well.

By order of the Union State Central Committee.

E. W. CASEY, Secretary.

In districts infested with Fever and Ague, it has been found infallible as a preventative and irresistible as a remedy. CHOLERA!

MR. PERRY DAVIS:—Sir: The benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen you a word in its praise. Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, severe Chills, Weariness, common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhœa, Dysentery, Toothache, etc., THERE IS NOTHING BETTER THAN THE PAIN KILLER. I have this hour recovered from an attack of the Sick Headache, by using two teaspoonsful, taken at thirty minutes interval, in a wine glass full of hot water. I am confident that, through the blessing of God, it saved me from the cholera during the summer of 1843. Traveling amid heat, dust, toil, change of diet, and constant exposure to an infected atmosphere, my system was daily pre-disposed to dyssentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy, one teaspoonful curing the worst case in an hour, or, at the most half a day. I have heard of many cases of Dysentery being cured by its use. Put in the teeth, it will stop the toothache. Gratitude and a desire for its general use, has drawn from me this unsolited testimonial in its favor.

REDINGTON & CO.'S COLUMN.

REDINGTON & CO.'S
ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to a persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

SPONTANEOUS COMBUSTION.

We are indebted to Dr. D. L. Whitside, dentist, of this city, for the particulars of a most singular and appalling catastrophe that occurred yesterday in the town of Columbus, forty miles east of this city, on the Madison railroad. About 8 o'clock, the attention of some citizens on the street was attracted to the liquor shop of a German named Andrew Nolte, by a light smoke issuing from it. He had long been known to be a very intemperate man, and recently it was supposed in consequence of his wife leaving him and applying for a divorce on account of his confirmed drunkenness, more constantly and beastly drunk than usual. On entering, they found him lying dead on the counter, upon a board which had been used to keep his feet off the floor, with his head near a whisky barrel. His clothes were still burning. His lips had been entirely burned away, leaving a ghastly hole, in which his tongue was seen burned to a crisp, as was the inside of his mouth and throat. His nose was also burned, as if by fire coming out of his nostrils. The remainder of the body was scorched where the burning clothes had touched, but showed no other indication of fire. The hands were drawn up to the mouth, as if to close it or shut off some dreaded thing from it. There was no fire in the room that Dr. Whitside could see, and certainly none near the horrible corpse.

A revolver was found beside it, but all the charges were in it, and no marks of injuries, except from the fire, was discovered, so that death could not have been by suicide. But if it had been the lips burned entirely off, and the crisped tongue, throat and nose would have been still inexplicable, as the fire was manifestly of recent occurrence—and it could not have been applied after death by some other persons without detection, or some mark or other that would indicate where the fire came from and how it was used. But if it could have been thus applied, it is impossible to believe that it was, for there could be no motive to burn a dead man; especially about the mouth and nose. The same fact of the singular character and locality of the burning, involving only the air passage, precludes the idea of a death by violence. No murderer or robber would try to kill a man by setting him on fire, or if he should he would not and could not put fire to his mouth and nose only. No hypothesis of murder seems to be tenable, and that of suicide is even more absurd. We must therefore conclude that the death was caused by spontaneous combustion, or by the burning of inflammable gases generated in the whisky rotten body, and escaping the lungs and air passages. This might have been caused by an attempt to light a cigar with a match or other flame. There are several authenticated cases of spontaneous combustion on record, as our physicians know, but we question if a more clearly marked case than this at Columbus has ever occurred. We may note that he had a soldier's blouse, a flannel undershirt, and cotton overshirt, and that his hair was not harmed.—*Indianapolis Sentinel.*

OBJECTIONABLE PERSONS.—At a large and fashionable ball at Alviso, on Monday evening last, says the the San Jose *Mercury*, two persons whose presence was objectionable to the company were refunded their money, and requested to take their women and leave. They did so, but returned shortly thereafter, armed with revolvers, and endeavored to create a disturbance. They were seized upon, thrust out of doors, bound hand and foot, and kept till morning, when they were brought to San Jose and lodged temporarily in the county jail.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

Private Medical Institute,

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and menta organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that he one, who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skilful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands o sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by etter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

MEDICAL.

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES.

DR. W. K. DOHERTY'S
Private Medical and Surgical Institute

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Sexual Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public prtronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgement for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhœa, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
I.— H—.

San Francisco, June 16, 1864.
subscibed and sworn to before me, this 21st day of June, A. D. 1864.
[L. S.] A. S. GOUND, Notary Public.

Seminal Weakness—A Sworn-to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptons as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was affected to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.
[L. S.] A. G. RANDALL, Notary Public.

To Females.

When a female is in trouble, or afflicted with diseases as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred, Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted. ☞ Consultation at the office FREE. HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—NEWS

TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is at the same place, corner of Kearny and Jackson streets, San Francisco, where he has been established for many years, for the cure of special complaints. MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT IS the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.
